

Remote Deployment Supervisor (San Diego)

Leidos

San Diego, CA

Full time

Potential For Telework: Yes, 75%

Clearance Level Required: Secret

Travel: Yes, 10% of the time

Job Description:

NGEN is the largest IT services program for the Navy. Under the Service Management, Integration, and Transport (SMIT) portion of NGEN, the Leidos team will deliver the core backbone of the Navy-Marine Corps Intranet, including cybersecurity services, network operations, service desk, and data transport. Ultimately, Leidos will support the Navy in unifying its shore-based networks and data management to improve capability and service while also saving significant dollars by focusing efforts under one enterprise network.

At Leidos, we know the most talented and diverse IT and Engineering professionals will always have a multitude of career choices; your time at Leidos will be a wise investment in your career and in yourself.

Job Summary:

Leidos is seeking a Remote Deployment Supervisor to support End User delivery as one of the key members of the Seat Services team. The candidate will plan, direct, and coordinate the Seat Delivery team's activities to provide desk side delivery of End User devices.

Primary Responsibilities:

- Lead the deployment teams in determining client requirements and translating requirements into operational plans
- Facilitate status review meetings among deployment team members and clients
- Ensure adherence to legally binding requirements and client's long-term goals

Basic Qualifications:

- US Citizen
- DoD Secret Clearance
- Valid DoD 8570 IAT Level II: A+ce Certification (will accept Network +ce, Security +ce, or CISSP)
- BA Degree 2-4 years of prior relevant experience or Masters with less than 2 years, OR high school diploma with 6+ years of prior relevant experience
- Excellent customer service skills
- Excellent oral and written communication skills

Preferred Qualifications:

- Ability to resolve conflicts between team members and unmotivated organizational staff members to obtain required information
- Organized and detail-oriented
- Self-motivated/ self-directing
- Strong collaboration, prioritization, and adaptability skills required. Relationship building
- Ability to manage and prioritize own work
- Independent decision making
- Analytical thinking; thinking out of the box
- Ability to effectively communicate with all organizational levels (SME to Senior Management)
- Ability to analyze problems at various levels (e.g. detail level, overall organizational impact, etc.)
- Knowledge of operating systems and network application delivery

Leidos is a Fortune 500® information technology, engineering, and science solutions and services leader working to solve the world's toughest challenges in the defense, intelligence, homeland security, civil, and health markets. The company's 38,000 employees support vital missions for government and commercial customers. Headquartered in Reston, Va., Leidos reported annual revenues of approximately \$11.09 billion for the fiscal year ended January 3, 2020. For more information, visit www.Leidos.com.

We proudly support the Veteran Jobs Mission, a group of over 200 companies that have committed to collectively hiring a total of one million military veterans.

Account Manager
Allied Universal
San Diego/Oceanside, CA
Full time

At Allied Universal®, we continue to build an inclusive, Be Phenomenal®, culture that encourages, supports, and celebrates a diverse workplace. It fuels our innovation and connects us closer to our customers and the communities in which we serve. We are North America's leading security services provider with over 265,000 phenomenal employees protecting over 50,000 client sites. There are countless examples of individuals who began their career as Security Professionals and today hold positions on our senior leadership team. We offer medical, dental and vision coverage, life insurance, 401K, employee assistance programs, company discounts, perks and more for all full-time positions! Start your phenomenal career with Allied Universal today!

Job Description:

Allied Universal is looking to hire an Account Manager. The Account Manager is accountable for day-to-day operations of an assigned account, including hiring, training, disciplining and terminating staff. Build, improve and maintain relationships with clients and employees: develop & retain staff; coordinate needed support services and solve problems to effectively run the account. Meet or exceed financial & operational goals; provide quality customer service. Maintains or oversees maintenance of weekly operating schedules and completion of payroll for assigned security personnel. Provides after-hour emergency response as required.

Essential Functions:

- Supervise the day to day security operations of an assigned client site
- Manage a team of security officers, site and/or shift supervisors including hiring/selection, scheduling, payroll, training, coaching, development and support
- Ensure the client site is provided with high quality security services to protect people and property
- Build, improve and maintain effective relationships with both client and employees
- Coordinate necessary support services to effectively manage client site to meet or exceed financial and operational goals and provide quality customer service

Additional Responsibilities:

- Ensure all required reporting and contract compliance requirements are met.
- Assure regular communication of issues or program with Client
- Handle any escalated security issues or emergency situations appropriately.
- Other management responsibilities as determined by leadership
- Communicate staffing needs via Requisition Form; assist recruiters in identifying, interviewing and hiring quality candidates.
- Develop staff in both technical and professional skills through performance management (coaching, counseling, disciplining, MSO training, annual formal performance evaluations, recognition, etc.)
- Assure that employee grievances are heard and resolved (with help from appropriate support employees, as required) and that personnel records are updated and accurate (Change of Status forms, rosters, etc.)
- Assure communication of policies, company announcements and job openings through a consistently updated READ file at each site.
- Meet all contractual scheduled hours with a minimum of unbilled overtime.
- Coordinate and/or conduct site-specific OJT, client-specific training, and annual refresher training for security personnel, as well as meet Allied Universal's corporate training standards.

- Responds to customer order and quotation requests received via the telephone, e-mail, written, and faxed correspondence within the department service goals.
- Performs necessary follow-up to ensure customer service expectations are met.
- Facilitates profitable growth and the sales process by adherence to department incentive and initiative programs.
- Researches and suggests alternative products to customers. Provides representation of products, increasing sales wherever appropriate or as requested.
- Uses computerized system for tracking, information gathering, and/or troubleshooting.
- Resolves customer issues including issuance of credit concessions.
- Refers complex, non-standard problems to supervisor.

Nature and Scope:

- Selects correct processes from clearly prescribed rules, past practices, or instruction. Seeks advice and guidance on non-routine or problem areas from supervisor. Deviations from the norm are cleared by the supervisor.
- Under close supervision, exercises limited latitude/independent judgment. Work typically involves detailed checks or close review of output by a senior coworker and/or supervisor.
- None.

Work Environment:

- Located in a comfortable indoor area. Any unpleasant conditions would be infrequent and not objectionable.
- Most of the time is spent sitting in a comfortable position and there is frequent opportunity to move about. On rare occasions there may be a need to move or lift light articles.
- No travel required.

Education And Experience:

- HS Diploma or GED strongly preferred. 0-2 years of experience in area of responsibility.

Preferred Qualifications

Preferred Qualifications & Job Specific Details:

- Previous customer service experience.

Build Your Career:

Consulting at Booz Allen means empowering you to provide your customers with the best support. With a consulting career at Booz Allen, you'll have access to:

- a large business consulting community
- experts in virtually every field
- a culture that focuses on supporting our employees

B. Program Management Analyst

Booz Allen Hamilton

San Diego, CA

Job Number: R0106603

Full time

The Challenge:

Are you searching for a position where you can use your project management and analysis skills to develop a project from concept to completion? A program requires a significant investment of limited resources. With that level of complexity, you need to keep the project on a productive path. That's why we need you, a program management specialist who can help ensure success through careful analysis and effective communication.

On our team, you'll implement and maintain organizational programs in support of mission critical Navy priorities. You'll work with program leadership to review contracts, project cost accounting, and tactical planning using tools like PowerPoint, Word, and Excel and regular interactions with SMEs, schedulers, customers, and project analysts. The real power of project management comes from communication to ensure the program achieves its goals and meets our quality standards. At Booz Allen, we recognize that we must continuously grow as a team to bring the best support to our clients, so here you'll have all the resources to succeed. This is a chance to directly impact a meaningful mission, while growing your skills in program strategy.

Work with us and help make sure our key Navy customer accomplishes its program goals as we improve warfighter readiness and Naval superiority.

Join us. The world can't wait.

You Have:

- Experience with project or program management
- Experience with Microsoft Office tools, project management processes, and a program functional area
- Knowledge of security cooperation
- Ability to handle ambiguity, difficult personalities, and changing priorities
- Secret clearance
- BA or BS degree

Nice If You Have:

- Experience with direct support of a US Navy organization performing systems acquisition
- Experience with working in a program office
- Experience in a program support or consulting role
- Knowledge of DoD acquisition and a program functional area, including scheduling, budgeting, policy, data gathering, analysis, and government contracts
- TS/SCI clearance

Clearance:

Applicants selected will be subject to a security investigation and may need to meet eligibility requirements for access to classified information; Secret clearance is required.

Build Your Career:

Consulting at Booz Allen means empowering you to provide your customers with the best support. With a consulting career at Booz Allen, you'll have access to:

- a large business consulting community
- experts in virtually every field
- a culture that focuses on supporting our employees

We have opportunities that provide stability while offering variety, so you can find the right fit for your career — and your life. You'll also have access to a wealth of training resources through our Consulting University, an online learning portal where you can access more than 5000 functional and technical, certifications, and books. Build your skills through hands-on training on the latest tools and tech from our in-house experts. Pursuing certifications that directly impact your role? You may be able to take advantage of our tuition assistance, on-site courses, vendor relationships, and a network of professionals who can give you helpful tips. We'll help you develop the career you want as you chart your own course for success. With contracts across the globe in multiple industries, no matter where you want to go with your consulting career, we have the path that takes you there.

Business Intelligence Developer (Power BI)
 Swiss Post Solutions
 United States
 Full time

Power BI Expert
 The Swiss Post Solutions team is growing and has an excellent opportunity for an experienced Business Intelligence (BI) Report Developer with a background in Power BI!

This is a full-time, domestic US-based remote position

We offer a stable, high growth company environment and innovative work culture! Come be part of the growth at Swiss Post!

Job Description:
 As an integral member of our delivery team, the Business Intelligence (BI) Report Developer is responsible for the design, development, implementation and support of mission-critical enterprise Business Intelligence (BI) reports

In the Financial Representative role, you will make a key impact on the branch culture by partnering with associates to help clients reach their goals.

From the moment clients arrive at the Investor Center, you will own providing Fidelity's best-in-class experience for them throughout their visit inspiring client dedication and engagement in order to develop long-lasting positive relationships with Fidelity.

We will help you obtain your FINRA series 7 and series 63 licenses allowing you to provide fundamental financial guidance.

The Expertise We're Looking For:

- A college degree is encouraged yet not required
- We feel customer service, sales, phone or financial services experience will prepare you for this role
- Banking, insurance, or financial experience is an excellent addition to your experience
- Your passion for delivering a world-class customer experience and desire to be an excellent ambassador to Fidelity's clients
- Superb interpersonal, customer interaction and communication skills
- We'll support you while you learn the FINRA licensing material and work to obtain your Series 7 & 63 licenses during your first six months

The Purpose of Your Role:

It is our mission for the Financial Representative to have rewarding interactions with clients beginning with their arrival to the Investor Center. As a multi-talented expert for compliance and all front lobby interactions, you will partner and contribute to branch success by providing a warm and welcoming environment upon client arrivals, helping them with service interactions and identifying planning and advice opportunities through those interactions. Setting the tone so that visiting customers feel that the Investor Center is accessible, has warmth, and is a place that they can ask questions is paramount to contributing to client success.

The Skills You Bring:

- Superb interpersonal skills and passion to engage with customers
- An aptitude for sales to dedicatedly identify leads
- Remarkable attention to detail and ability to prioritize
- Computer literacy and experience working with multiple applications at once
- Your organizational skills to manage multiple tasks simultaneously
- Adept at assessing client needs through both verbal and non-verbal communication
- Ability to run and upkeep the lobby / lounge of Fidelity's fast paced Investor Center
- Inventory management experience to ensure all client collateral and office supplies are in stock
- Aspiration to partner with Fidelity's clients to build long-lasting relationship and financial plans.

The Value You Deliver:

- A vital member of the team, you are offering support to Fidelity's most wealthy and valuable clients daily
- By identifying leads and making effective introductions, you are directly impacting the success of the branch
- Your efforts will be valued by clients and you will find working with those clients a rewarding experience
- As a technology champion for the branch, you will be an early adopter of technology and share what you have learned with the team

How Your Work Impacts the Organization:

Fidelity remains committed to delivering the best customer experience in the financial services industry. We help millions of people save and invest through personal investment accounts and workplace savings plans. Our associates build long-term relationships with our customers, helping them navigate our full range of investor products and services, including one-on-one investment guidance, wealth management, retirement planning, income strategies, and college planning services, as well as integrated employee benefits solutions.

Certifications:

Series 07 - FINRA, Series 63 - FINRA

Company Overview:

At Fidelity, we are focused on making our financial expertise broadly accessible and effective in helping people live the lives they want. We are a privately held company that places a high degree of value in creating and nurturing a work environment that attracts the best talent and reflects our commitment to our associates. We are proud of our diverse and inclusive workplace where we respect and value our associates for their unique perspectives and experiences. Find your Fidelity at fidelitycareers.com.

Senior DevOps Architect
Job ID: 1494195
Amazon Web Services, Inc.
USA Remote

DESCRIPTION:

Do you enjoy leading, guiding, and influencing customers and team members throughout the DevOps journey? As an AWS DevOps Architect, you will have the opportunity to work on some of the world’s most complex challenges. You will apply your deep technical expertise to solve cloud-based solutions at scale. You will lead customers through transforming their business with the combination of cultural philosophies, practices, and tools that deliver end-to-end applications and infrastructure solutions.

The Senior DevOps Architect is a leader with extensive automation and programming experience throughout the software development lifecycle (SDLC), servicing multiple teams or organizations. A successful DevOps Architect has technical depth across the full DevOps spectrum along with leading and evangelizing transformations, and driving innovation.

Our team members work with enterprise customers locally, regionally and domestically. As such, team members will be required to travel to client locations to sell and deliver professional services as needed.

BASIC QUALIFICATIONS:

- Bachelor Degree or 10+ years of professional or military experience.
- 8+ years of experience as a technical specialist.
- 2+ years of hands-on experience of programming in languages such as Python, Ruby, Go, Swift, Java, .Net, C++ or similar object-oriented language.
- Experience with architecting and automating cloud native technologies, deploying applications, and provisioning infrastructure.
- Hands-on experience with Infrastructure as Code, using CloudFormation, Terraform, or other tools.
- Experience architecting cloud native CI/CD workflows and tools, such as Jenkins, Bamboo, TeamCity, Code Deploy (AWS) and/or GitLab.
- Hands-on experience with microservices and distributed application architecture, such as containers, Kubernetes, and/or serverless technology.
- Experience with the full software development lifecycle and delivery using Agile practices.

PREFERRED QUALIFICATIONS:

- Experience with Chef, Puppet, Salt, or Ansible in production environments.
- Knowledge of IP networking, VPN's, DNS, load balancing and firewall.
- Experience with monitoring and log aggregating frameworks such as Kafka, Logstash, Splunk, ElasticSearch, and Kibana.
- Experience implementing and designing cloud native security concepts, DevSecOps or MLOps.
- AWS Certification(s) such as Solutions Architect Pro, DevOps Engineer Pro, SysOps Admin, Developer Associate.
- Strong presentation, verbal communication and written communications skills.
- Ability to lead effectively across organizations and engagements, preferably from a professional services organization or similar.

Amazon Web Services (AWS) is one of the most dynamic and fastest growing businesses of Amazon. Since 2006, AWS has provided companies of all sizes with cloud technology products & solutions and access to a global computing infrastructure that is the backbone of Amazon's multi-billion dollar retail business. Today, AWS powers hundreds of thousands of businesses in 190 countries around the world. Come build the future of cloud computing with us! <https://aws.amazon.com/careers>

- Identify and support improvement opportunities for product yield, quality, safety, cost and team efficiency
- Develop and support efforts to streamline assigned products and automate production processes as applicable
- Organize and communicate the daily priorities to production coordinators, team leads and supervisors as required
- Provide daily visibility, weekly status, and monthly reviews on schedule performance
- Create and leverage metrics using queries and Excel to highlight shortages and determine schedule risks

BASIC QUALIFICATIONS:

- Bachelor's degree or 2+ years of professional manufacturing scheduling experience

PREFERRED SKILLS AND EXPERIENCE:

- Bachelor's degree and 4+ years of professional manufacturing scheduling experience
- 2+ years of experience with MS Office
- 2+ years of practical experience with ERP/MRP systems in a production environment
- Proficiency with Microsoft Excel
- Experience writing queries with SQL
- Familiarity with lean principles, six sigma and Kaizan concepts
- Project management professional certification

ADDITIONAL REQUIREMENTS:

- Must be available for all shifts, extended hours, and weekends as needed
- This role is current slated for 2nd shift (approx 2 pm to 10 pm)
- Must be able to lift up to 25 lbs unassisted

B. AVIONICS ELECTRO-MECHANICAL TECHNICIAN

SpaceX

Hawthorne, CA

Full time

SpaceX was founded under the belief that a future where humanity is out exploring the stars is fundamentally more exciting than one where we are not. Today SpaceX is actively developing the technologies to make this possible, with the ultimate goal of enabling human life on Mars.

RESPONSIBILITIES:

- Mechanical/electrical assembly of PCB assemblies into product chassis
- Build small electrical sub-assemblies
- Build battery cell modules
- Wire harnessing
- Solder and desolder through-hole and SMT components
- Support conformal coat, masking, epoxy application and coating
- Run functional testing on units

BASIC QUALIFICATIONS:

- High school diploma or equivalency certificate
- 2+ years of professional experience using mechanical hand tools

PREFERRED SKILLS AND EXPERIENCE:

- Associate degree
- Conformal coat support experience utilizing NVOC, urethane, acrylic and silicone based conformal coatings
- Experience maintaining and programming of PVA conformal coat system
- Current or past certification for NASA-STD-8739.3, IPC-610 or equivalent
- Experience preferred in fast-paced production environment with flight hardware
- Able to adapt to constant changing work assignments and fast paced work environment
- Excellent communication (written and verbal) and teamwork skills
- Excellent concentration and attention to detail with outstanding work efficiency and accuracy

ADDITIONAL REQUIREMENTS:

- Able to work all shifts and available for overtime and weekends as needed
- Standing for long periods of time, climbing up and down ladders, bending, grasping, sitting, pulling, pushing, stooping, and stretching may be required to perform the functions of this position
- Able to lift up to 25 lbs. unassisted
